IMPORTANT INSTRUCTIONS - OPERATING MANUAL

FOR OSCILLATING MODELS:
- OSCILLATION: Push down oscillation knob on motor housing to make fan head move from side to side.

NOTE FOR OSCILLATING MODELS: FAN IS SHIPPED WITH 90° OSCILLATION ANGLE. FOR 45° OSCILLATION ANGLE, CONNECT THE OSCILLATION LINK TO THE INNER-MOST HOLE IN THE CAM GEAR. (Inset A)

MAINTENANCE
WARNING: ALWAYS UNPLUG THE CORD BEFORE MOVING OR SERVICING.
WARNING: DO NOT IMMERSE FAN IN WATER!
CLEANING: Use a soft cloth and mild soap solution such as liquid dish washing detergent. Dry all parts completely before reconnecting to power supply.
CAUTION: Do not use gasoline, benzine, thinner, harsh cleaners, etc. as they will damage the Fan. NEVER use ALCOHOL OR SOLVENTS.
SERVICING: All other servicing, with the exception of general user maintenance, should be performed by an authorized service representative. Call 1-800-233-0268, Monday through Friday, between the hours of 8:00 a.m. and 5:00 p.m. EST for the location of your nearest service center.
LUBRICATION: Precision bearings are sealed at the factory and do not require further lubrication.
STORAGE: Store the Fan, with these instructions, in a clean and dry place.

LIMITED WARRANTY
WHAT THIS WARRANTY COVERS: This product is warranted against defects in workmanship and materials.
HOW LONG THIS WARRANTY LASTS: This warranty extends only to the original purchaser of the product and lasts for one (1) year from the date of original purchase or until the original purchaser of the product sells or transfers the whole product with the same or comparable model.
WHAT THIS WARRANTY DOES NOT COVER: This warranty does not apply if the product was damaged or failed because of accident, improper handling or operation, shipping damage, abuse, misuse, unauthorized repairs made or attempted. This warranty does not cover shipping costs for the return of products to Air King for repair or replacement. Air King will pay return shipping charges from Air King following warranty repairs or replacement.
ANY AND ALL WARRANTIES, EXPRESSED OR IMPLIED (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY), LAST ONE YEAR FROM THE DATE OF ORIGINAL PURCHASE OR UNTIL THE ORIGINAL PURCHASER OF THE PRODUCT SELLS OR TRANSFERS THE PRODUCT, whichever first occurs.
WHAT AIR KING WILL DO: During the warranty period, Air King will, at its sole option, repair or replace any part or parts that prove to be defective or replace the whole product with the same or comparable model.
WHAT THIS WARRANTY DOES NOT COVER: This warranty does not apply if the product was damaged or failed because of accident, improper handling or operation, shipping damage, abuse, misuse, unauthorized repairs made or attempted. This warranty does not cover shipping costs for the return of products to Air King for repair or replacement. Air King will pay return shipping charges from Air King following warranty repairs or replacement.

GENERAL SAFETY INFORMATION
When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to person, including the following:

1. Read all instructions before using Fan.
2. Make certain that the power source conforms to the electrical requirements of the Fan.
3. Use this Fan only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electrical shock, or injury to persons.
4. To reduce the risk of personal injury and electric shock, the Fan should not be played with or placed where small children can reach it.
5. Unplug power cord before servicing, or moving the Fan.
6. This Fan must NOT be used in potentially dangerous locations such as flammable, explosive, chemical-laden or wet atmospheres.
7. Do NOT use Fan in or near a window. Rain may create an electrical hazard.
8. Completely reassemble Fan, according to instructions, before reconnecting to power supply.
9. The power cord is equipped with a three-prong grounded plug that must be inserted into a matching receptacle. Under no circumstances should the grounding prong be cut off the plug. Where a two-prong wall receptacle is encountered, it must be replaced with a properly grounded three-prong receptacle installed in accordance with the National Electrical Code (NEC) and all applicable local codes and ordinances. This work must be done only by a qualified electrician, using copper wire only.

IMPORTANT INSTRUCTIONS - OPERATING MANUAL

24" / 30" OSCILLATING WALL MOUNT FAN
MODEL 9025, 9035, 9074, 9075

24" / 30" NON-OSCILLATING WALL MOUNT FAN
MODEL 9024, 9030, 9070, 9071

CUSTOMER SERVICE:
Toll-Free (800) 233-0268, Email: producthelp@laskoproducts.com
Our Customer Service team is available to assist you with product questions, service center locations, and replacement parts. They can be reached Monday through Friday, 8am-5pm EST. Please have your model number available, as well as the type and style (located on the underside of your product). Please do not return product to place of purchase.
Customer Service Dept., 820 Lincoln Ave, West Chester, PA 19380. (Please do not send product to this location)
Parts for discontinued, obsolete and certain other products may not be available. Due to safety reasons, many electronic components and most heater components are not available to consumers for installation or replacement.

IMPORTANT INSTRUCTIONS - OPERATING MANUAL

WALL BRACKET INSTALLATION (Figures 1 through 4)

NOTE: Always install the bracket to a minimum of 2” x 4” studling.

1. Insert the 7/16-14 x 3-1/2” Bolt through Flag Bracket, Wall Bracket and into the 7/16-14 Lock Nut. Tighten with Adjustable Wrenches. MAKE CERTAIN THE DIRECTION OF THE FLAG BRACKET is as shown in Figure 1.

2. THE HARDWARE TO ATTACH THE WALL BRACKET TO THE WALL STUD IS NOT SUPPLIED. Locate the wall stud nearest to the desired Fan location. Attach the Wall Bracket to the stud using (3) 5/16” diameter x 2” long Lag Screws.

3. Position the Flag Bracket in the Motor Neck and align the Pivot Hole with the Larger Hole in the Flag Bracket. (Figure 2)

4. Attach pull string to motor speed switch, if desired.

5. Insert the 1/2” X 1” Hex Bolt (3/4” head) through the Motor Neck, and the Flag Bracket. Place 1/2” diameter Split Lockwasher then the 1/2” diameter Hex Nut (3/4” head) and tighten fully with 2 adjustable wrenches. (Figure 3)

6. From the same side of the Motor Neck, insert one 1/4-20 X 1 5/8” Carriage Bolt through the Arc-Shaped Slot in the Motor Neck and Hole in the Flag Bracket. (Figure 3)

To Fasten: Place one 1/4” Flatwasher, one 1/4” Internal Tooth Lockwasher, a second 1/4” Flatwasher and then tighten the Adjustable Knob so that the name, in the center, is right side up and straight across. Starting at the top: Fasten the Front Grill to the Motor Neck. Install (6) 10-32 X 5/16” Hex Screws through the Rear Grill into the Motor. Securely tighten all (6) screws. (Figure 5)

CAUTION: TO ADJUST HEAD ANGLE: after Step 3, hold the Front Grill so that the name, in the center, is right side up and straight across. Starting at the top: Fasten Front Grill to Rear Grill by sliding the hooked wires on the Front Grill over the outermost ring on the Rear Grill. (Figure 6 / Detail A) The bottom most hooks will require the use of a flathead screwdriver to complete assembly. Stand behind the Fan. Slip the flat of the screwdriver between the Front and Rear Grills, next to one of the unfastened hooks. (Figure 6 / Detail B) Pull screwdriver handle upwards towards the Rear Grill. Slip the Front Grill hook over the Rear Grill outer ring with a push. Repeat procedure with remaining hooks.

CAUTION: DO NOT BEND WIRES ON THE FRONT OR THE REAR GRILLS.

SECONDARY SUPPORT CABLE (Figures 7 and 8)

1. Loop one end of Cable around the Large Guard Wires of both the Front and Rear Grills.

2. Attach a Cable Clamp with the “U” on the tail side of the loop leaving a tail approximately 1 to 2 inches. Tighten Clamp Nuts. Make sure no part of the Cable interferes with the Blade.

3. Wrap the other end of the Cable around a secure building joist, truss, or other support near the Fan. Take up all excess slack in the Cable.

CAUTION: USE ONLY THE MOUNTING HARDWARE WHICH IS RECOMMENDED FOR USE ON THIS FAN.

4. Attach the remaining Cable Clamp as indicated in Step 2. The excess tail should be trimmed to extend 1 to 2 inches past the Clamp.

5. Check the Assembly to assure the Blade is free of all obstructions.

CAUTION: Use of the secondary support cable does not guarantee protection against injury of persons, mounting of both the circulator and cable could fail if subjected to abuse, neglect or improper installation.

OPERATING INSTRUCTIONS

1. TO OPERATE: Plug cord into a grounded 120V, 60 Hz outlet. Select desired operating speed with pull cord on the rear of the motor:
   - First pull: High
   - Second pull: Medium
   - Third pull: Low
   - Fourth pull: OFF

   NOTE: THIS FAN IS VERY HEAVY. Failure to securely hold onto head assembly while adjusting head angle could result in personal injury.

2. TO ADJUST HEAD ANGLE: While holding head firmly, loosen knob under motor (turn counterclockwise). Tilt head to desired position and tighten knob with the Motor Head Adjustment Knob and the On/Off Pull Cord have the same location on oscillating or non-oscillating models.

NOTE: Motor Head Adjustment Knob and the On/Off Pull Cord have the same location on oscillating or non-oscillating models.
