**SPECIFICATIONS**

**INLINE EXHAUST FANS**

- **Motor**
  Enclosed 2 pole, life time lubrication, ball bearing motor. Suitable for continuous operation. Maximum air temperature 140° F. Suitable for use with fan speed controller. 115 Volts, 60Hz.

- **Blower Wheel**
  Backward inclined, balanced polymeric single inlet blower wheel.
  Model IL12: Backward inclined, balanced metal single inlet blower wheel.

- **Electrical Connections**
  Power Unit: ½” electrical knockouts provided with internal terminal block.

- **Unit Mounting**
  Power Unit: Metal fan mounting bracket included with the unit.

Please note: The Home Ventilation Institute (HVI) does not currently have a sound test standard for remote mounted fans. As a result sound levels (sones) are not listed. In most cases, a remote fan will be quieter than one mounted within the living area.
