

SPECIFICATIONS
QH900
 HEATER

HEATING ELEMENT ACCESSORY
 (use for setting of 70 CFM and higher)

- **Blower Wheel**
One piece polymeric, 2⁵/₈" x 4¹/₂" with 48 fins.
- **Motor**
2 pole motor, lifetime lubrication, thermally protected. Rated 120 volts, 60hz.
- **Housing**
26 gauge baked epoxy housing. Internally lined with closed cell thermal insulation. Dimensions: 11¹/₂"H x 8"D x 10¹/₈"W (total of 22⁷/₈" W including QFAM unit).
- **Heating Element**
Ceramic heating element bonded to large heat transfer surface allows heating at very low operating temperature. 2 stage self regulating design provides 900 Watts or 450 Watts.
- **Duct Collars**
6" round, zinc plated metal collar with integrated protection screen (taken from QFAM unit).
- **Electrical Connections**
Connects to existing wiring of QFAM unit via a quick connect molex connection.
- **Electrical Ratings**
120V, 60Hz, 9.0 amps (includes QFAM).
- **Unit Mounting**
Mounts to QFAM model fresh air supply fans ONLY.

<i>Adjusted Air Flow @ 0.2 inches of static pressure (in. w.g.)</i>
